

## County Counsel's Impartial Analysis of Measure M-1: Special Tax Measure

The Butte County Counsel has prepared the following impartial analysis of Measure M-1 pursuant to Elections Code Section 9160. This analysis is not an argument for or against the measure.

### **Analysis:**

This measure is being submitted to voters within an unincorporated area of the County that has the same boundaries as County Service Area 37 (the "CSA 37 area") as required by Proposition 218, which prohibits new special taxes and/or special tax increases within any area of the County unless and until the new special tax or special tax increase is submitted to the voters within that area and approved by a two-thirds vote.

This measure would extend an existing special tax within the CSA 37 area, as specified in Ordinance 4116, adopted by the Butte County Board of Supervisors on July 26, 2016, for standby costs of providing emergency room services at Orchard Hospital, a critical access hospital. If the measure is approved by two-thirds or more of the votes cast on the measure, the existing special tax, in the amount of \$70.00 per Equivalent Residential Unit, will continue to be imposed on real property in the CSA 37 area for an additional ten (10) years. The special tax would expire after ten (10) years, unless renewed. The amount of the special tax for each parcel of residential real property is based upon the number of Equivalent Residential Units.

For the purposes of defining an Equivalent Residential Unit, the following categories have been established:

- (1) Single family residential (1);
- (2) Multi-family residential unit (.75 );
- (3) Condominium (.75 );
- (4) Vacant parcels and parcels without residential units shall not be subject to

the tax.

The continued imposition and levy of the special tax is expressly conditioned upon the adoption by the cities of Biggs and Gridley and the approval of their respective electorates, of special tax measures within their respective jurisdictions which also provide funding for the hospital emergency room at the same rates and for the same duration as the proposed special tax.

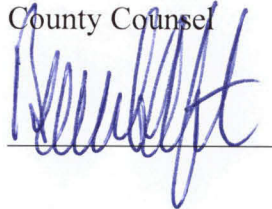

The special tax would not be imposed upon real property owned by the County, the State of California, or any other public district or agency of the State or the United States of America.

The special tax could not be increased or extended in the future unless another election were held in the CSA 37 area approving the increase or extension by two-thirds or more of the votes cast.

The amount of the special tax imposed each year will appear as a separate item on each tax bill and will be collected by the County in the same manner and at the same time as property taxes. The approximate amount that will be raised by the special tax per year is \$330,000.00.

The revenues generated from the tax can only be used for standby costs of providing emergency room services at Orchard Hospital.
